1.0 Purpose of Report

The purpose of this document is to report on compliance with the conditions of the EPBC approval for the Project (EPBC 2018/8167) and to satisfy Condition 12 of that approval, which states:

The approval holder must prepare a compliance report for each 12 month period following the date of commencement of the action, or as otherwise agreed to in writing by the Minister. The approval holder must:

- a) publish each compliance report on the website within 60 business days following the relevant 12 month period;
- b) notify the Department by email that a compliance report has been published on the website within five business days of the date of publication, and provide a link to the location of the published report;
- c) keep all compliance reports publicly available on the website until this approval expires;
- d) exclude or redact sensitive ecological data from compliance reports published on the website; and
- e) where any sensitive ecological data has been excluded from the version published, submit the full compliance report to the Department within 5 business days of publication.

The reporting period is for the fifth year of the action starting from 28 January 2024.

Description of activities

2.0

2.0 Description of Activities

The site covers approximately 62.8 hectares and is bound by OHerns Road to the north, Cooper Street to the south, Hume Freeway to the east and a quarry to the west. The landscape is generally flat, with no ridges, crests or waterways within or immediately adjacent to the site. There were no patches of remnant native grassland and the vegetation entirely comprised introduced noxious weed Chilean needle - grass *Nassella neesina*.

The impact site has approval to create an industrial estate involving:

- the removal of topsoil deposits for the construction of road/infrastructure corridors;
- site leveling works;
- sewer, water main and storm water drainage construction and associated trenching areas already cleared of topsoil deposits;
- pavement works for pathways; and
- construction of buildings on the lots together with car parking fencing and landscaping.

The approved action involves the removal of 54.36 hectares of Golden Sun Moth habitat with offset obligations met with two offset sites supporting known habitat for the species.

Works undertaken during the current reporting period

The action commenced on 28 January 2020 affecting no more than 33.66 hectares of Golden Sun Moth habitat.

In the reporting period from 28 January 2024 construction commenced on some of the smaller lots within the stage 2 area and subdivisional works commenced on the stage 3 land. The works in stage 3 involved the removal of topsoil and trenching for the installation of services. Development of the wetland open space reserve on the eastern boundary has been completed.

Since commencement of the activity the first and second stages of the industrial subdivision have been completed to the south and east of the approval site and involves the construction of a signalised intersection, estate roads and street landscaping. Eight lots have been developed with 13 warehouse tenancies.
